ABSTRACT

The South Carolina Annual Program, Library Services and Construction Act (LSCA), 1973-74, was originally developed on the basis of the interim funding level announced by the Office of Education at the beginning of the fiscal year. Following congressional approval of the Labor-HEW Appropriations Bill in December 1974, additional funds became available under LSCA. This Supplement to the Annual Program, 1973-74, reflects the increased funding level between the interim funding and the Appropriation Act. Projects include: general administration; career education workshops; county library improvement; resource centers for metropolitan libraries; services to the rural disadvantaged; book collection improvement projects; film program; communications network; area reference resource centers; and interlibrary loan network. NOTE

The Annual Program, Library Services and Construction Act, 1973-74, was originally developed on the basis of the interim funding level announced by the Office of Education at the beginning of the fiscal year. Following Congressional approval of the Labor-HEW Appropriations Bill in December, 1974, additional funds became available under LSCA. This Supplement to the Annual Program, 1973-74, reflects the increased funding level between the interim funding and the Appropriation Act.

Where the only change was an increase in the amount allocated for a project, a revised budget sheet is published in this Supplement. For the narrative description of such projects, the reader should refer to the original Annual Program, 1973-74. When a project has been added or restored to the program, both budget and description are included herein.

In all cases this Supplement should be used in conjunction with the Annual Program, Library Services and Construction Act, 1973-74.

SECTION C--DESCRIPTION OF PROJECT

1. Contributions toward attaining goals of the long range program: Supporting Goal II E directly and Goal V B indirectly, the project will improve in depth the reference resources of six metropolitan libraries which serve as resource libraries for surrounding areas and thus improve reference service to the people of the entire state.

2. General description: This project will provide grants to the six libraries for the purchase of reference material needed to give depth to the central reference collection for the areas. The libraries receiving these grants must meet all requirements for State and Federal Aid. The libraries must furnish the State Library with proof that the current budget for reference materials will not be reduced below the amount of local funds budgeted for this purpose during the preceding year. Each library in consultation with the chief librarians of the public libraries in its service region must develop and carry out plans for publicizing and promoting its service throughout the service area. Grants will be paid to the libraries on a reimbursement basis upon the submission of acceptable records of expenditure of the funds.

   The three libraries previously designated as Area Reference Resource Centers (Charleston, Florence, Greenville) will receive grants of $20,000 each for the purchase of reference materials. Three additional metropolitan libraries (Aiken, Richland, York) will receive grants of $10,000 each to strengthen their reference resources.

3. General aims: The aim of the Metropolitan Libraries: Resource Centers Project is to strengthen the reference resources of the six central libraries and thus provide a better level of service to the people of the areas.

SECTION C--DESCRIPTION OF PROJECT

1. Contributions toward attaining goals of the long range program:
This project supports Goal IIB and aids public libraries of South Carolina in improving and enlarging their book collections in order to provide better library service.

2. General description: The Book Collection Improvement Project is a continuing program which provides grants to participating county and regional libraries with which to purchase or rebind standard titles for adults, young people and children. Libraries receiving these grants must meet all requirements for State and Federal Aid. The libraries must furnish the State Library with proof that current book budgets will not be reduced due to the receipt of grant funds. Grants are paid to the libraries on a reimbursement basis upon the submission of acceptable records of the expenditure of the funds.

In 1973-74, twenty-five county and regional libraries are expected to participate in the project. Grants will be made on a per capita basis. An equitable distribution between headquarters and extension units will be expected. At least 40% of the grant will be spent for juvenile materials to support the American Patriot Reading Club, a Bicentennial activity being conducted by South Carolina libraries in 1974 and 1975. Libraries owning at least one book per capita may choose to spend 10% of the total grant for audio-visual materials, including recordings, filmstrips, cassettes, or prints, but not motion picture films.

3. General aims: The aim of the Book Collection Improvement Project is to strengthen the resources of South Carolina public libraries and to support the special juvenile programs.

SECTION C--DESCRIPTION OF PROJECT

1. Contributions toward attaining goals of the long range program: This project supports Goal II B and aids public libraries of South Carolina in improving and enlarging their book collections in order to provide better library service.

2. General description: The Book Collection Improvement Project--Juvenile is a special program for libraries which do not qualify for the full BCIP project. It provides grants to participating county and regional libraries with which to purchase standard titles for children and young people. [Libraries which own at least one book per capita may use up to 10% of the grant for audio-visual materials (records, filmstrips or cassettes).] As well as strengthening the total library resources, materials purchased will be used to help carry-on the American Patriot Reading Club, a special Bicentennial Project being conducted in South Carolina during the summers of 1974 and 1975. Libraries receiving grants must meet minimum requirements for State and Federal Aid. Libraries must furnish the State Library with proof that current book budgets will not be reduced due to the receipt of grant funds. Grants are paid to the libraries on a reimbursement basis upon the submission of acceptable records of the expenditure of the funds.

In 1973-74, eight county and regional libraries are expected to participate in the project. Grants will be made on a per capita basis according to the juvenile population (age 0-14) as determined by the 1970 census.

3. General aims: The aims of the Book Collection Improvement Project-Juvenile are to strengthen the resources of South Carolina public libraries and to support the Bicentennial activities of the libraries, specifically the American Patriot Reading Club.

Project VII: Film Program

SECTION C--DESCRIPTION OF PROJECT

1. Contributions toward attaining goals of the long range program:

This project fulfills Goal IC1 by making available at the State level a central collection of motion picture films.

2. General description: In order to avoid the establishment of a second film library at State level, the State Library will contract with Educational Services, Instructional Services Center, University of South Carolina to make available film services to public and state institutional libraries. The Center will house and operate the program in return for compensation from the State Library. It will purchase, maintain, and distribute motion picture films to qualifying libraries in accordance with rules and regulations adopted by the two agencies. Films purchased for the program will be adult films of cultural, educational, and informational value, preferably those adapted to use with discussion and primarily in the areas of arts, humanities, travel, and social, political and economic fields.

The State Library will plan and implement in 1974-75 a program to provide instruction and training in the handling and use of films and equipment for participating librarians. Use of the films in the community will be promoted by carefully planned publicity.

3. General aims: The general aim of this program is to demonstrate the effectiveness of 16mm films in expanding the informational resources of public and institutional libraries and in reaching a clientele as yet little affected by the library's book oriented programs. This program will strengthen the services and resources of local public and state institutional libraries economically and efficiently. Provision of a central collection of films will prevent costly duplication of resources and make available to the public a far broader selection of films than any library could provide alone.
